

THE NEWEST VERTICAL ARM AWNINGS...

...designed exclusively
for the RV Market.

Airxcel is delighted to introduce Velarium Awnings. They have a modular arm design—the arms are interchangeable regardless of width—reducing carrying costs.

Currently available in 5 widths, custom widths from 10 to 20 feet will be available in 1-foot increments.

Our product road map includes a wide range of fabric color and design options.

VERTICAL ARM AWNINGS

- **Modular Arms** –Interchangeable means fewer stocking parts. The same arms work with any awning width.
- **Manual override in the case of power loss**
- **Attractive LED lighting**
- **Widths of 10', 12', 14', 16' and 18'**
- **Shade lengths available to OEM specifications**
- **Shade colors initially available in black, with grey fade forthcoming**
- **Patent-pending pitch adjustment lock**
- **Robust extruded arm sets**
- **Prototypes available January 2023, production volumes available April 2023**
