

12V BOX AWNING...

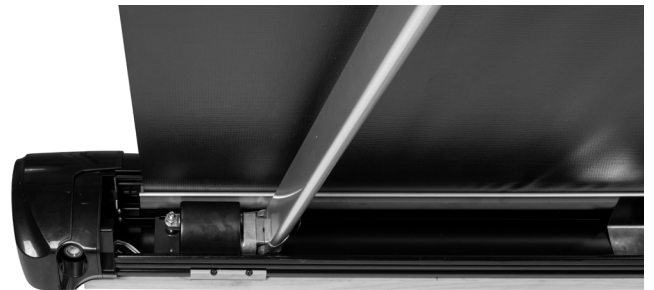

...packed with premium features that come standard!

Velarium's 12V electric RV lateral arm box awning is designed to meet the highest industry standards for sun protection, user-friendliness, and durability. It boasts a lightweight, sleek case made from black powder-coated aluminum that shields the awning from the elements when retracted providing lasting protection and a contemporary appearance.

LED lighting is standard on the awning as is access to an online app for control on the go. For added safety, an optional wind sensor automatically retracts the awning in high winds to prevent damage. Ideal for the Class B market or on units without the head clearance required for a vertical arm awning.

12V LATERAL ARM BOX AWNING OFFERING SUPERIOR SUN PROTECTION
