

MEET YOUR NEWEST OPTION!

Vertical Arm Awnings designed exclusively for the RV Market.

Improving the awning experience for RV owners, Velarium integrates an easy-to-use pitch adjustment lever. Once locked in place, the canopy angle remains set for a consistent, reliable pitch every time the awning is opened. When a different pitch is desired due to changes in sun angle or other factors, the quick lock mechanism makes re-setting the desired pitch fast and easy.

- **Extruded Aluminum Canopy Edge Rail** –Slides easily into canopy edge “C” channel, making installation fast and with fewer errors.
- **Patent-Pending Pitch Adjustment** –Lock for fast and easy use.
- **Modular Arms** –Interchangeable means fewer stocking parts. Arm sets can be used with any awning width.
- **Manual Override** –In the case of power loss.
- **Attractive LED Lighting** –Along inside canopy rail.
- **Sizes from 10' - 22'** –Available in one-foot increments.
- **High-Quality, Durable Vinyl Canopy**
- **Robust, Extruded Arm Sets**

LED lights along the interior of the awning provide an elegant outdoor space under the protection of the awning canopy.
